

# Many More Experiences

## Tasting Beer at Home

To celebrate the **ECAI2020 International Congress** on August 29th, we will have a virtual beer experience with our Beer Expert who will teach us how to taste a beer properly and thus we can discover all characteristics of this amazing liquid.

### What do you need?

Your favorite beer.  
We will enjoy the beer tasting with Estrella Galicia Especial.

A generic colorless glass of fine crystal.  
We will use the universal beer tasting glass, the Teku glass.

A white background (a sheet of paper works perfectly) and do the tasting in a well-lit place.

### Anything else?

Take your beer out of the fridge a few minutes before starting the tasting.

**Enjoy the experience!**

See you on August 29th at 12:15

You can't miss it!
